

There are three different cage types in the vivarium. Thus, each letter has three dimensions. If we use springs with hooks to attach the device to the cage we should be able to accommodate the differences for dimensions D & E. Below I am providing the smallest and largest dimension.

A = 10" - 12"

B = 10 4/16 - 14"

C = 17 14/16 - 18 12/16"

D = 20 2/16" - 20 8/16"

E = 22" - 22 4/16"

F = 3"
